Drafting (or drafting) is the creation and editing of a drawing plan by a person using a drafting tool and paper. This is the art of working out a drawing (plan or section) in a logical manner. Drafting may involve measuring, marking, cutting, projecting, designing, specifying, and drawing. Some of the first uses of drawing in Western cultures were for military planning, mapmaking, and astronomical calculation. Many engineering designs and mechanical plans also started as drawings. The baby, a girl, was abandoned near a local playground in New Delhi on Saturday. Police said the child was suffering from a respiratory infection. Officers discovered the baby at the Aashram hospital in the capital and rushed her to a hospital where she was diagnosed with pneumonia. The baby was taken to the Safdarjung hospital for further treatment. Detective sergeant K.S. Sandhu said that four men had taken the baby to the hospital and gave her an injection. "The four accused took the child to the Aashram hospital and a doctor there handed over the baby to them. "She was suffering from pneumonia and had fever. She was admitted in the paediatric ward. The baby was later shifted to the Safdarjung hospital. We suspect that the baby was abandoned after she developed cough. However, we don't know why the child was left alone at that time," said Sandhu. "The four accused took the baby to the hospital and gave her an injection. They told the police that they had not been paid for the job. We suspect that they were paid around Rs 1,000 for this," he added. The police have registered a case of kidnapping and negligence against the four accused. The baby is under the care of the Delhi Commission for Protection of Child Rights.. The prevalence of unclassified acute gastroenteritis virus was also high.
