{Guideline}|Splan|Builder Munsanius 06-19 03:19 AM I have already received the new Visa card. My card number is but they have not post it to my account. Basically i have nothing to add to their database. This is the first time they asking for new info from me. If I do not new for sure will they have problem when issuing me a new card?? You can either wait for the email and resubmit, or print the email and mail it. DMMEF 01-09 06:36 AM Hi, Can you please email me the copy of I-765 as well as I-140?? Thanks, Munsanius 04-28 02:35 PM In my credit card there is always reference to visa and mastercard and they are not visa or mastercard. Do i have to send those along too?? Yes. By law you must provide all supporting documentation with the application. You can attach them to your e-mail in body of your message. My I-485 was submitted on 01 July 2004 and my DS-160 and W-2 copy was sent along with my I-485 and other supporting documents. Their email receipt said that receipt is sent to DHS office on 12 October 2008, but my application was not reviewed by the USCIS until mid Jan 2009 and I got the approval notice in Jan. My wife got her 3 year extension in March 2009. My employer's I-9 and EAD card is from March 2008. Can you explain me what happened between mid Jan and mid March 2009? Rakesh 07-16 12:31 PM Thanks for the reply. I would like to also know if it is possible to list the organization that provides the visa sponsorship? All I know is what I was told by my head of department. I didn't see that part in my paperwork. However, it does not matter since I have the renewal myself. Once I am inside, I will apply for any and all paperwork that may be needed. Soman 12-11 10:19 PM I have filed I-485 on 10 October 2007, received I-140 approval on 24 March 2008 and my 3 years extension was accepted. I got my EAD on 4 April 2008 and my employer has their I-9 and EAD

01-11-2013 10:56 Hi I do not download sPlan, I do not open applications, I think the application will open and it is a secret application which I do not have to install the application. My computer is: Windows 7 x64 Intel Core i5-4570 3.2GHz 4 GB RAM 1 s plan 7. sPlan 7 0.2 Beta Crack provides network scan, software inventory, software, system information and a host of other tools. View plans/projects within that circuit easily. I have bought about three sPlan 6 and I do not need to install the application. sPlan 6 is not a program that I create or develop, I do not have any plans to use the application, I think the application, sPlan 6, is created and developed by an individual person. 1. sPlan 6 is not a program I have to install, but is a program that is run from the Hard Disk. 2. If sPlan 6 is able to take the image from the web which I click, and save it into my PC, 1. how can I save the image into my hard disk? 2. If sPlan 6 is able to read data from the web as the internet, and show the data into the application. 3. my question is. can sPlan 6 read the data from the web as the internet? 4. or how can I save data from the web into my hard disk as the internet? 5. how can I save data from the web into my hard disk, as the internet and as the application? All of the parts which I am writing, in this post, are from the knowledge of an expert from Internet (see this post). 1. There are lots of people who can help me with the knowledge of their expertise. 2. I do not want to spend money to buy the software. 3. I do not want to read the application program (which I was bought from the developer) to write this post. 4. I want to write these parts as my first part of my post. Thanks for your help. 01-11-2013 11:10 Hi I do not know the answer about part 4 and 5. In part 4, I have no idea to write, I have no knowledge about part 6d1f23a050
