A collection of exercises for. 1 (pdf / zip). In 2 parts Academy Miscellaneous Publishing House 448 pages soft cover Annotation: This edition includes over 400 new vocabulary units and exercises designed to reinforce speaking skills. The textbook is designed for learners of English at the advanced level. The textbook is the result of the author's many years of experience as a communicative method teacher. Publisher: Academy Year: 2018 Price: Analysis of the use of payroll at the enterprise OJSC "Elektrokabel... Section: Other Type of work: Abstract Date of writing: December 15, 2014 Client: IE 350 rubles Introduction Recently, due to increasing demands on the results of enterprises, special attention is paid to improving the efficiency of personnel management.

For the effective use of personnel for a long time in each organization develops a system of remuneration, which includes: - a system of official salary; - the system of additional payments and bonuses; - bonus system. Depending on the type of activity within the framework of labor rationing different wage systems can be used. For example, at trade and communication enterprises (which are a kind of non-production sphere enterprises) depending on the complexity of work, working conditions and other factors, time and piece-premium wages, as well as various additional payments and bonuses are used. 1.3 Organization and regulation of labor at the enterprise Labor management is aimed to provide the most effective use of labor and material resources and increase the effectiveness of social production in the long run. Its main goal is to create working conditions that would promote maximum productivity growth and health preservation of employees. Labor standardization is the establishment of labor costs for the performance of a certain amount of work at a certain time.
