the term refers not only to the transfer of information to a wide audience. communication takes place as we try to persuade others to behave in a certain way or share our point of view. we use certain sentences, words or phrases to express our beliefs. we try to get what we want. we want to show our capability and satisfy our desires. we want to influence others or we want to be influenced. these are fundamental concepts for all human beings, whether they are seafarers or not. if the communication is well-constructed, then the intention will be clear. if there is any deviation in this, then things can get complicated. the communication that occurs aboard vessels can be divided into two main types: verbal and non-verbal. verbal communication takes the form of formal or informal spoken communication such as greetings and goodbyes, descriptions of the time and location of meetings and instructions. co-ordination is one of the most important aspects of successful communication. the ability to work effectively in a group or a team depends on the ability to understand and manage the differences in the people that make up that group or team. when communicating in a team, individuals need to understand themselves and the manner in which they communicate. one of the most common mistakes that people make is to assume that others behave in the same manner as themselves. this is not always the case. the behavior of others may be quite different. therefore, it is important to understand the culture or working style of the people that make up the group or team.

Ces 4.1, Set 6000, Colreg, Marlins English Test

each competency module is accessible individually for review of result, the questions and answers, the supporting material/lectures/interactive material/animations as well as the rationale for choosing the questions asked. section one "on board" tests: these tests allow the test taker to test their competence in 4 areas of practical skills, functional skills and competencies. the overall sets plus "on board" tests score is based on the score obtained in each of the 4 areas, this will account for about 35% of the overall sets plus "on board" test score. section two "quiz" section: this section consists of 37 small individual quizzes. each quiz is a series of questions/answer pairs, the answers for each pair are determined by the right or left side of the screen. the maximum number of questions in each quiz is 20. section three "on board (question paper only)" section: this section has 50 questions with the answers being presented only on the right hand side of the screen. the maximum number of questions is 20. ces software allows you to easily evaluate crew knowledge with a comprehensive content based approach, which is the essence of an effective knowledge based system. it also allows you to tailor your training to meet your requirements. we can help you train your new recruits in the shortest possible time and with the lowest possible cost to the company. ocean technologies group has a history of providing robust online assessments across seafarer competence, english language skills, ability profiling and personality testing which has proved invaluable in ensuring that our customers can continue to assess candidates for important positions, giving them an advantage over competitors struggling with deferrals and delays.
