If you're upgrading from an older version of Photoshop, you'll need to make sure it's set to save as PDF files rather than TIFF files. The files will save as TIFF, but you can't actually open them on newer versions of Windows. For Photoshop, we have to open a file and save in this format. A perpetual problem for Photoshop users is the lack of the CSSE (Custom Scripting extension). This is the native extension that allowed users to create their own scripts, but Adobe removed this feature in CS4, so it's only available in Elements, Lightroom, etc. You can still create use scripts like Elements, but you have to upgrade—you can't run them in a stand-alone Adobe Photoshop CS5 or earlier. As Adobe tells us, this is not a new feature; it's been around, it's just now part of the free update. You'll see a prompt asking if you want to update to the latest version of any app that needs it. The update prompt will only appear if any of the apps you use requires the update; it won't pop up asking you to upgrade the Free Photoshop app. The Photography Planner gives you deeper insights into your photographs, helping you tweak and retouch each image. Adobe also offers image-based, mobile and desktop solutions that make it easier to organize and work with pictures from anywhere. With the Adobe WebFont Kit, developers can now use web fonts to render popular high-density typefaces in their Web sites and apps. You don't have to build your own system - just download the ready-to-use package and embed the fonts on your page. The kit includes free fonts from 2016 Typefaces New Fonts, available in five typefaces, including: three new serifaces: two Foundry ITC Garamond Pro and one courtesy of the masters of the Helvetica Neue family. A new 1900s faces series called Web Grotesk and Neue Grotesk, bringing the sharp, clean nature of the vintage serif to the screens of the future.
